BACKGROUND

ABOUT

My passion for software development began in high school when I started tinkering with HTML and CSS to build websites, while my entrepreneurial spirit and interest in business led me to earn a degree in Business Administration from Georgia Tech. Combining my knowledge of business and love for web development, I began working as a freelance developer for local clients and remote contractors. During my 12-weeks at The Iron Yard, I learned how to build full-stack applications in JavaScript and grew enamored with creating applications that provide an enjoyable user experience through a form that follows function. When not working on my latest app idea, I am taking cracks at the local boulder problem and reading up on the latest CSS hacks between attempts.

WORK EXPERIENCE

- **Web Developer**, Independent Contractor

Mar, 2014 - Present 🕒 1 year 1 month

Worked as a principal and sub contracting freelance web developer for local and remote clients.

- Built local business sites with a focus on responsive design and SEO, using Twitter Bootstrap, WordPress and Google Analytics
- Collaborated with remote developers on Magento eCommerce projects

Operations Supervisor, American Outdoor Skating Centers

Nov, 2013 - Dec, 2014 ⌚ 1 year 1 month

Managed the day to day operations of the south's largest outdoor ice skating rink at Atlantic Station in Atlanta, GA.

- Lead a team of 8-12 employees that served 1,500+ guests per day during peak weeks
- Piloted the Zamboni and maintained the ice surface in less than ideal conditions

Delivery Driver, Zifty, LLC.

May, 2014 - Nov, 2014 ⌚ 5 months

Delivered food quickly and efficiently for an extremely unique tech startup in Atlanta.

- Earned a customer feedback score of over 4 out of 5 stars throughout employment
- Developed expert knowledge on how to best navigate Atlanta's legendary rush hour traffic
